

CoreLogic®

Cordell Estimator Platinum

The future of estimating is finally here

Our most powerful estimating platform allows you to take control with super-fast estimating and the ability to see behind the costs, using our recipe explosions. With advanced reporting and access to a huge range of costs, Estimator Platinum increases both speed and accuracy.

Combined with the latest New Zealand cost data (including material, labour & plant hire) from Cordell, the Estimator Platinum platform creates an affordable, easy to use professional estimating tool for builders and trades for residential construction.

Create estimates quickly and easily.

- ▶ Easily add costs to your estimate from our extensive costing databases.
- ▶ Use elemental costs to make your estimating super-fast and flexible.
- ▶ View what's included in any costing recipe.
- ▶ Create your own recipes and import your own price lists.
- ▶ Customise your estimates, including costs and descriptions.

Online Access - the best way to estimate.

- ▶ Access your estimates from anywhere via the internet.
- ▶ Never lose an estimate again, with our cloud storage.
- ▶ Get daily cost updates.

Get smart with reports and tools.

- ▶ Print estimates in a client friendly report with your logo and details.
- ▶ Choose from nine different customisable reports.
- ▶ Re-use or import standard estimates, no need to reinvent them.
- ▶ Use one of our Cordell pre-filled templates to start your estimate.
- ▶ Combine with Planswift to take off quantities and get your estimates done even faster.
- ▶ Monitor profit for every job with our builder friendly cost tracker.
- ▶ Track the progress of your job using the embedded project scheduler.

Full Support.

- ▶ Estimator Platinum is user-friendly and easy to learn. But just in case we offer unlimited phone support at no extra cost.

Cordell Estimator Platinum + *PlanSwift*

Estimator Platinum and PlanSwift work together to take the time and guesswork out of quoting.

We have teamed up with US-based Oracle Primavera/Textura to deliver PlanSwift to the New Zealand construction Industry. PlanSwift is remarkable software developed by experts with real building industry experience.

Two great tools. One smart solution. Estimator Platinum and the PlanSwift take-off tool work together to provide fast, accurate, up-to-date costings complete with quantity take-offs at the click of a button.

When you purchase the Estimator Platinum with PlanSwift tool you also get access to some exclusive features that you won't find anywhere else. That's because PlanSwift also comes with pre-populated Cordell formula tabs for greater convenience - saving you even more valuable time and effort.

Additional tabs built into the PlanSwift tool help take your estimating to the next level. These tabs are; Measuring Units, Assemblies and Element Units. The Assemblies tab provides a multitude of quantities with just one measurement, so that you can take-off quantities with a few clicks of a button, instead of spending hours calculating every item. This saves time and reduces the chance of errors and costly mistakes.

Two simple steps - one accurate quote

1. Use PlanSwift to produce take-off quantities from your project plans.
2. Next, use these quantities within Estimator Platinum to receive a fast, competitive costing for the entire project. It lets you deliver prompt quotes based on accurate measurements and current costings.

PlanSwift allows you to work quickly and intuitively from digital plans, using easy multi-format software to create detailed estimates and take-offs.

- ▶ No need to worry about overlooking materials
- ▶ If it's coloured, it's counted - it's that simple
- ▶ Sensible folder structure allows for all individual components
- ▶ Works with PDF, JPEG, DWG and scanned drawings.
